LOVELLÉ

CRAFTING CONFIDENCE

Lovellé is a premium, unisex beauty and grooming sanctuary dedicated to the art of self-care. Founded with the belief that grooming is a fundamental expression of self-respect, we provide a sophisticated environment where modern aesthetics meet traditional relaxation. From precision hair styling to restorative facial therapies and intricate nail artistry, Lovellé is designed to be a holistic destination for individuals seeking to refine their appearance and recharge their spirit.

CRAFTING CONFIDENCE

Our goal is to establish Lovellé as a premier destination in Bangalore before expanding across India through a strategic franchise and salon network. We aim to evolve into a full-scale lifestyle brand by launching our own signature cosmetic line, all while maintaining a steadfast commitment to inclusive, high-quality grooming that lives up to our promise of "Crafting Confidence."

VISUAL CONCEPT

The Lovellé logo is an elegant exercise in symmetry and balance. At its heart lies a sophisticated, singular emblem that artfully merges the silhouettes of a man and a woman into one seamless, unified form. This interlocking design serves as a powerful symbol of our unisex philosophy, representing a space where gender-neutral grooming meets personalized artistry. The mark is defined by bold, clean lines that command attention, yet it retains a refined grace that feels both timeless and professional. It is a visual promise of the "Crafting Confidence" tagline—strong, clear, and impeccably styled.

COLOR PALETTE

The Foundation: A base of Dark Gray and Crisp White provides a high-contrast, modern canvas that feels architectural and clean.

The Signature Accents: Glimmering Gold accents are woven throughout the identity, adding a touch of opulence and highlighting the premium nature of our services.

The Luxe Layer: To add dimension and a sense of "regal" relaxation, we utilize a secondary palette of Luxurious Dark Purple and Deep Maroon. These jewel tones provide a velvety, sophisticated backdrop that positions Lovellé as a leader in the luxury beauty and wellness space.

Logo Construction

Clear Space

100 %

75 %

50 %

Size

For optimal clarity and legibility, the logo should be used at **no less than 75%** of its original size in both digital and print applications.

This ensures the details remain visible and the brand identity stays strong across various media.
